MY PERSONAL RECOMMENDATION:

I am strongly motivated individual as this is the industry I always wanted to be in, I am never afraid to take on challenges and is goal driven. I am aware of the benefits if this industry but also the blood and sweat that goes together with it and am not afraid. I also want to do things that have never been done in this industry and make a name for myself. I work well in a group and know how to handle any situation but also how to tackle a situation by myself.
